Step 1: Community approaches AIL for help.

Step 2: Collaborative planning for a center, consultation with all parties, community contributions.

Step 3: Requested classes for women/girls - often starts with sewing and literacy

Step 4: Expansion in line with requests: computing, English, leadership and health workshops and more

Step 5: Women seek more education, form home businesses, seek greater role in community, advocate for themselves. provide family with economic resilience, families more stable, communities more self-sufficient society balanced.
